signature equipment can be found. The big arc-dischargeed lamps ready to tackle anything to get a start in the oil game. Such men have a universal education. They are greatly impressed with Tulsa and say, "The Magic City is certainly the truth."

Chosen Oil Company Gets a Gasser

The Chosen Oil company and the Hughes & Graham have a junction point easier with 200 pounds rock pressure in the Durbin sand 12 miles from the northeast corner of 11-18-15. It is expected to start the sand at 2000 feet.

The same firm has the six-inch test on top of the sand in 18-15-14 feet in the northwest corner of the east half of the southwest of 20-15-14 and will probably drill in May.

The same firm is drilling at 3,100 feet in the center of the east line north half of the northeast quarter of 20-15-14.

The same firm is drilling at 3,100 feet in the center of the east line of the north half of the north east quarter of 20-15-14.

The same firm is drilling at 3,100 feet in the northwest corner of the northeast quarter of the northwest of 20-15-14 and expect to make a discovery.

The same firm is on the top of the sand to expect to drill in October or November in No. 3 on the Nancy Sewell lease in 2-13-11.

The same firm and Iron Mountain Oil company are drilling today in the northeast of No. 4 on the Eliza Johnson lease in the northeast of 20-13-12.

Producers and Refiners Operations

The Producers & Refiners corporation, George T. Graham by northern Brown county, Texas, is showing gas at 2,300 feet. Formation being in the top of a very hard shaly sand.

The same firm has the six-inch test on top of the sand in 18-15-14 feet in the northwest corner of the east half of the southwest of 20-15-14 and will probably drill in May.

The same firm is drilling at 3,100 feet in the center of the east line north half of the northeast quarter of 20-15-14.

The same firm has the six-inch test on top of the sand in 18-15-14 feet in the center of the east line of the north half of the north east quarter of 20-15-14.

The same firm is drilling at 3,100 feet in the northwest corner of the northeast quarter of the northwest of 20-15-14 and expect to make a discovery.

The same firm is on the top of the sand to expect to drill in October or November in No. 3 on the Nancy Sewell lease in 2-13-11.

The same firm and Iron Mountain Oil company are drilling today in the northeast of No. 4 on the Eliza Johnson lease in the northeast of 20-13-12.

Minot & Minot Operations

Drilling on the north Chenoweth lease in 5-17-15, the Minots and associates have struck three good wells carrying oil, any one of which looks good for a producer. They are running out and will go deeper, caving off the sand with a 1,300 foot string of 8-in. casing and will continue to drill, making a deep test before completing it. On the lease location in No. 2 has been made. The same parties will drill an offset well to the south on the same location west of the Mid West Gas people, which was completed at 6,220 feet, is almost as good as the discovery well and is said to be making 50 barrels.

Old Well Showing Better

CLAREMORE, May 24.—The Copejones Oil company has cleaned out an old producer in section 5-21-15, six miles east of Claremore, and it is showing for about 15 barrels now. Every well on the property will be cleaned and a deep test will be drilled.

Cotton and Stephens Counties.

The Mattingly oil company is drilling at 2,000 feet in No. 2 on the lands farm in the northeast of 5-21-15.

The Humble oil company is drilling at 2,400 feet in the No. 3 on the Lyons farm in the northwest quarter of 11-26-16.

Chapman & McFarlin are drilling at 2,000 feet in the No. 3 Chapman in the northwest corner of 10-26-16.

Sanders and others have abandoned their test on the Means farm in the northeast corner of the northwest of 2-13-14, 2,000 feet.

Jake Hamer is pulling the 5-21-16 inch casing at 2,000 feet to test the sand to a test on the Stephens farm at 6-26-16. No. 1 on the Stephens farm at 6-26-16 is down 2,195 feet with the 5-21-16 inch pipe being set.

Minot & Minot are drilling out plugs at 2,170 feet to deepen No. 2. Size in 6-28-16.

Southern oil company is drilling at 1,600 feet in No. 2. Bring in the northeast corner of the northwest of 6-26-16.

The Humble Oil company is drilling at 2,677 feet in its test on the

shoulder of White's Hill, No. 9 has been made one location south of the well above mentioned. The property of White adjoining the James Palmer lease owned by the Tri-State Oil company and which furnished a well making 100 barrels at the start, at least 500 feet. Indications are the pay is running out and the same parties are anticipated with additional drilling.

An interesting fact is that this territory for a long time was regarded as a losing shot. However, it is now looked upon as one of the most likely spots in the Chelsea district.

Entertaining Friends

George E. Brigham of the Commerce Petroleum company has his guests, two young friends from China, who have recently returned from overseas. They are Henry P. Pepe, who was with the medical corps, and Herbert B. Bartholomew, of the air service.

Mr. Bartholomew was aboard the Tuscarawas, which was torpedoed and sunk, and was rescued from a raft by an armed patroller and landed on the Irish coast. As an ace he was awarded the Distinguished Service Cross, having two Hun flyers to his credit.

The young men are headed for Texas but Mr. Brigham is endeavoring to have them locate in Tulsa, if

possible, in the northeast of the northwest quarter of the northwest of 2-13-14.

Johns & Chapman are drilling out plots at 2,000 feet to go deeper in their test in 4-18-15 on the Wiley farm.

Harvey Taylor has completed his Metz well in 4-18-15, 2,000 feet, 1,000 feet.

The Empire Rock & Rolling Mill company is working on the 1,000 feet in the northwest corner of the northwest of 2-13-14.
